

THAZIN

IoT & Cybersecurity Engineering Student

Karnataka, India | +91 6361596173 | thazin1609@gmail.com | www.linkedin.com/in/hazin16 | github.com/Thazin-54

PROFESSIONAL SUMMARY

Aspiring technology innovator pursuing a B.E. in Computer Science Engineering (IoT, Cybersecurity & Blockchain). Proven leadership as Student Chair of the AgentBlazer Club with hands-on experience building real-time cyber-physical systems. Passionate about edge computing, firmware optimization, and secure connected systems bridging hardware innovation with clinical and industrial impact.

TECHNICAL SKILLS

Languages: Python, Java, Embedded C, C++, SQL

Hardware: ESP32, Arduino Uno, Raspberry Pi, Sensor Interfacing (PIR, IR, Ultrasonic)

Protocols & Networking: MQTT, HTTP, I2C, SPI, UART, OSI Model Architecture

Tools & Cloud: Firebase Realtime Database, Git, GitHub, VS Code, Arduino IDE, OpenCV, HTML/CSS

PROJECTS

Automated Hand Hygiene Compliance IoT System	TechFusion 2.0 Hackathon (2026)
- Built a low-cost (Rs.820/bed) ESP32-based passive IoT prototype tracking hospital hand-sanitization compliance within a 24-hour constraint. - Engineered an edge-detection pipeline using PIR and IR sensors with a 30-second compliance window and real-time alerts (<100ms buzzer/LED) on violations. - Integrated Firebase Realtime Database for event logging and built a live HTML/JS web dashboard for ward-level analytics.	
Smart IV Drip Monitoring & Auto-Control System	Ongoing
- Architecting an ESP32-based system monitoring IV fluid levels and flow rates with weight/flow sensors; transmitting telemetry via MQTT/HTTP to a nursing dashboard. - Implementing micro-servo valve control logic for automated fluid regulation to improve patient safety metrics.	
ML-Based Gesture Recognition	2026
Built a real-time hand gesture classification app using OpenCV and Python with score tracking and modular logic architecture.	

LEADERSHIP & ACTIVITIES

Student Chair, AgentBlazer Club	2025 – Present
Alva's Institute of Engineering & Technology	
Leading cross-functional teams to organize technical workshops, boot camps, and department-wide tech events in emerging tech domains.	
Master of Ceremony (MC)	2024 – Present
Alva's Institute of Engineering & Technology	
Hosted 8+ major institutional events with audiences of 500+ students, corporate guests, and academic dignitaries.	
Attendee, Open Source India Conference	2025
Engaged with global developers on open-source hardware, edge systems, and cloud architecture advancements.	

EDUCATION

B.E. in IoT, Cybersecurity & Blockchain Technology	2023 – Present
Alva's Institute of Engineering & Technology (VTU)	
CGPA: 8.6	
Pre-University Education (PCMB)	2021 – 2023
Government Pre-University College, Karkala	
92.83%	
SSLC	2020 – 2021
Government High School, Karkala	
88%
